A Message about your Patient Portal

We heard your feedback about your experience with the patient portal. We are excited to announce that we are working to bring you a new and improved way to access your medical information. As a part of this upgrade, the **current patient portal will become unavailable starting Friday, March 1**. All portal services will be inaccessible until the new system launches. We commit to keeping you informed as we get closer to launching the new patient portal. We apologize for any inconvenience you may experience during this downtime. Rest assured, **all of your existing information will be transferred into our new patient portal**.

Please reach out to your health center with any questions.

We thank you for your patience.
